

SACHIN DEVARAJAN

Machine Learning Engineer | Data Scientist | Data Analyst

sachindevarajan7@gmail.com | 8220226139 | Pudukkottai, Tamil Nadu, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Machine Learning enthusiast experienced in building end-to-end ML pipelines — from data preprocessing and feature engineering to model training, evaluation, and serialization. Comfortable with Scikit-learn, cross-validation, hyperparameter tuning, and reproducible workflows, with growing exposure to big-data tooling (PySpark, Hadoop). Seeking a Junior ML Engineer role to build and productionize reliable ML systems.

EXPERIENCE

Data Science Intern — PySpiders

Dec 2025 – Present

- Engineered and validated structured datasets using Python, Pandas, and NumPy, improving data quality and reliability for downstream analytics workflows.
- Performed Exploratory Data Analysis (EDA) on large datasets to identify trends, anomalies, missing values, and business opportunities, informing data-driven decisions.
- Developed and validated multiple machine learning models using Scikit-learn, comparing algorithm performance through cross-validation and hyperparameter tuning (GridSearchCV).

PROJECTS

Blinkit Executive Dashboard

Power BI, DAX

github.com/SachinDevarajan/Blinkit

- Built a centralized executive Power BI dashboard across 5 linked datasets, cleaning records and designing a Star Schema data model with an optimized Date Dimension for fast query performance.
- Created 15+ DAX measures including Total Revenue, Average Order Value, Delivery Success Rate, Customer Retention Rate, ROAS, and MoM/YoY Growth for stakeholder reporting.
- Uncovered that email campaigns achieved the highest ROAS (1.97) and delivery success rate reached 69.4%, directly informing marketing and operations decisions.

Amazon Sales Dashboard

Power BI

github.com/SachinDevarajan/amazon_sales

- Designed an interactive Power BI dashboard giving stakeholders a unified view of sales performance, profitability, and regional trends.
- Built Star Schema relationships and DAX measures (Total Sales, Total Profit, Profit Margin, Average Sales, YoY Growth, Monthly Sales Trend) with KPI cards and drill-through reports.
- Identified top-selling product categories, high-performing regions, and profit-driving customer segments, while flagging low-performing products for improvement.

Car Market Data Analysis

Python, Pandas, NumPy, Matplotlib, Seaborn

github.com/SachinDevarajan/Car-Sales-Analysis

- Performed exploratory data analysis (EDA) on 11,000+ vehicle records to identify key factors influencing vehicle prices and market trends.
- Cleaned the dataset and engineered new features (Price Category, Average MPG, Vehicle Age), treating outliers to improve analysis accuracy.
- Conducted correlation and bivariate analysis, finding engine size strongly correlated with price and mileage negatively impacting resale value.

IMDB Movie Review Sentiment Analysis

Python, NLP, Scikit-learn

github.com/SachinDevarajan/IMDB_Review_Analysis

- Built a machine learning model to automatically classify 50,000+ movie reviews into positive and negative sentiment using NLP techniques.
- Converted text into numerical features using TF-IDF Vectorization and trained a Logistic Regression classifier through a full ML pipeline with model serialization via Joblib.
- Achieved 90% test accuracy with 0.90 Precision, 0.90 Recall, and a 0.90 F1-Score, validated through a full classification report.

TECHNICAL SKILLS

Machine Learning: Pipeline Design, Model Serialization (Joblib), Cross Validation, GridSearchCV, Model Evaluation, XGBoost, Random Forest, Ensemble Learning

Programming: Python (OOP, Functions, File/Exception Handling, Regex)

Data Engineering: Data Cleaning, Data Wrangling, ETL, Feature Engineering, Data Validation, Data Quality Assurance

Big Data: PySpark, Hadoop HDFS

Databases: SQL, Advanced SQL, Window Functions, CTE, Snowflake

Version Control: Git, GitHub, Documentation

CERTIFICATIONS

HackerRank SQL (Intermediate) — HackerRank, 2026 | Deloitte Data Analysis Job Simulation — Deloitte/Forage, 2026 | Tata Data Visualisation: Empowering Business with Effective Insights — Tata/Forage, 2026

EDUCATION

M.Sc. Information Technology — Rathinam College, Coimbatore (CGPA: 6.80)

2022 – 2024

B.Sc. Computer Science — J.J. College, Pudukkottai (CGPA: 7.44)

2019 – 2022
